+ Society**

**Conversation Series**

**Join us** for a series of conversations at  
the intersection of biology and society.

Life Science  
**ETHICS**

**Join the Center for Biology and Society Spring Conversation  
Series featuring the Life Science Ethics Program!**

*Special Series Theme: "Organizing for Biodiversity Conservation in the Age of Extinction."*

**"Organizing Institutions for Biodiversity Conservation"**

A conversation with **Jonathan Losos**, Washington University in St. Louis,

**Ben Minter**, ASU School of Life Sciences, and

**Ryan Davila**, ASU School of Life Sciences

**Wednesday, April 10th, 2019**

**Life Sciences C Wing, Rm 202**

Lunch provided anytime between: 11:30 a.m. - 12:00 p.m.

Conversation begins: 12:00 p.m.

*"The challenge of conserving biodiversity requires acting across multiple levels of organization, including different biological scales and value systems, professionals, stakeholder collaborations, disciplines, and institutions. In March, this series explored biodiversity conservation as a stakeholder process. This month we will focus on the challenge and opportunities of organizing institutions and disciplines to understand and sustain life on earth. Jonathan Losos, Washington University in St. Louis, will discuss the Living Earth Collaborative, a groundbreaking biodiversity partnership helmed by Losos connecting people and programs at WashU to the St. Louis Zoo and the Missouri Botanical Garden. He'll be joined in conversation by Ben Minter, Arizona Zoological Society Endowed Chair, School of Life Sciences, and Ryan Davila, a PhD candidate in Biology and Society in SoLS.."*

**Co-sponsored by the Arizona Zoological Society Endowed Chair**
